1. Claims 1-5 are rejected under 35 U.S.C. § 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-5 are indefinite in the recitation "disintegrant." The term "disintegrant" is not art recognized. The claims recite no structural limitations on disintegrant other than its melting temperature and water solubility. It is unclear whether "disintegrant" is merely a means limitation and the claims are meant to read on any compound having the claimed melting temperature and water solubility or if the claims are meant to be limited to a specific class of compounds by the word "disintegrant."
